#### **DETAILED ACTION**

#### Acknowledgment

1. The amendment filed on 3/10/2008 has been entered.

### Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States
- 3. Claims 31-32, 37 and 39 are rejected under 35 U.S.C. 102(b) as being anticipated by Mizuta et al. (5,086,858).

Regarding claim 31, Mizuta et al. disclose an off-road vehicle comprising a frame, a plurality of wheels arranged to support the frame, at least one seat (6) supported by the frame, an internal combustion engine (8) powering at least one of the wheels, and an air intake system arranged to supply air to the engine. The air intake system comprises an air cleaner (25) configured to filter the air. The seat being disposed in a fore to aft direction on the vehicle such that the air cleaner lies forward of the seat and at least a portion of the engine lies behind the seat (see figure 3).

Regarding claim 32, Mizuta et al. disclose the air intake system delivers supply air to at least one combustion chamber of the engine.

Art Unit: 3618

Regarding claim 37, Mizuta et al. disclose at least a portion of one combustion chamber of the engine, which is positioned rearwardly of the seat.

Regarding claim 39, Mizuta et al. disclose the entire air cleaner, which is disposed forward of the forward-most edge of the seat.

### Allowable Subject Matter

4. Claims 1-6, 8-10, 12-21, 34 and 38 are allowed.

# Response to Arguments

5. Applicant's arguments filed 3/10/2008 have been fully considered but they are not persuasive. In response to applicant's remark that claim 31 is not participated by Mizuta et al., because no portion of the air cleaner is positioned forward from the seat. The examiner disagrees, because the claim 31 recites "the air cleaner lies forward of the seat" not "from the seat". Also Mizuta et al. in figure 3, disclose the air cleaner having a bottom and a top. The top is positioned forward of the seat from the bottom. (Noticed the term "forward" define from dictionary, which is directed toward to a point or a place).

## Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3618

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hau V. Phan whose telephone number is 571-272-6696. The examiner can normally be reached on 7:30AM-4:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chris Ellis can be reached on 571-272-6914. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
